### ANNUAL REPORT

# HANOVER 1897

#### ANNUAL REPORT

----OF THE-----

### TOWN OFFICERS

\_\_\_\_OF\_\_\_\_

# HANOVER, N. H.

Year Ending February 15, 1897

----FOR THE-----

HANOVER, N. H. THE DARTMOUTH PRESS 1897

#### STATE OF NEW HAMPSHIRE.

[L. S.]

To the inhabitants of the town of Hanover, qualified to vote in town affairs, you are hereby notified to meet in the Hall of C. W. Hayes in said town on the second Tuesday of March, next, at ten of the clock in the forenoon, to act upon the following subjects:

1st. To choose by ballot and major vote a town clerk.

2d. To choose by ballot and major vote three selectmen and all necessary town officers.

3d. To raise such sums of money as may be necessary for the maintenance of the poor.

4th. To raise such sums of money as may be necessary for the support of schools.

5th. To raise such sums of money as may be necessary for repairing highways, for laying out and constructing highways.

6th. To raise such sums of money as may be necessary for other necessary town charges.

7th. To see if the town will vote to establish a public library, accept the provisions of Chapter S, sections 21-26 of the Public Statutes in such manner as to be entitled to one hundred dollors worth of books from the state, raise and appropriate a sum not less than fifty dollars annually for the support of the library and otherwise comply with the provisions of said Chapter of the Public Statutes.

8th. To hear the reports of agents, auditors, committees or officers heretofore chosen, and pass any vote relating thereto.

Given under our hands and seal this February 20th, 1897.

JOHN L. BRIDGMAN, Selectmen EDWARD P. STORRS, of ALBERT PINNEO, Hanover.

A true copy of warrant attest.

JOHN L. BRIDGMAN, EDWARD P. STORRS, ALBERT PINNEO,

Selectmen of Hanover.

#### BOARD OF EDUCATION OF DISTRICT NO. 1

The tabular statements submitted herewith exhibit the leading statistics concerning each school. The summary for all of the schools is as follows:

Spring	Fall	Winter
Scholars between 5 and 15 years of age	160	134
Scholars over 15 years old	42	40
Whole number of scholars	202	174
Average attendance	159	153
Number not absent during term	23	29
Visits by committee 8+	14	9
Visits by other friends 32+	58	12
10 wks.	14 wks.	12wks.

The results for the winter term pertain only to the seven weeks previous to the printing of this report.

The whole number of pupils has increased from 179, on last year's report, to 202. The school was closed ten days in the fall term, on account of scarlet fever, by order of the Board of Health. This, and other sickness afterwards, caused the decrease in average attendance. The lost week is made up in the spring vacation.

The duties of the Board have been distributed as follows: Mr. Fletcher, superintendent of the building and visitor for the sub-primary school.

Mr. Lord, committee on teachers and instruction, and visitor for the intermediate school.

Mr. Frost, treasurer.

Mr. Langill, purchasing agent, secretary and visitor for the primary school.

Mr. Hazen, committee on plans for the addition, and visitor for the grammar school.

Mrs. Worthen, committee on instruction and visitor for the High school.

Special committees on schedule, on certain studies and on the addition to the schoolhouse.

At the close of the spring term a change was made in the scheme of studies for the High school, and arrangements for advanced studies, in a post-graduate course, as described below: Miss E. J. Clark, who had served the district faithfully and acceptably three years and a term, did not wish to undertake the work required by this change, and the Board engaged Mr. Roland E. Stevens, a graduate of Dartmouth College in 1895, as Principal. The variety of studies and number of classes have demanded from eight to nine recitations daily. These and many petty details of administration have added much to the labors and responsibility of the position.

The teachers in all the schools have worked earnestly and devotedly; the Board has been fortunate in being able to retain the services of those of approved ability who have commended themselves to the people of the village. During the regretted absence of Miss Bickford through the last tetm, owing to family affliction, the Board called upon Miss Alice Warden, whose experience elsewhere made her available.

According to the vote passed at the last school meeting the Board concluded the following contract with the president of Moor's Charity School:

"THIS AGREEMENT, entered into this sixth day of May, 1896, between Hanover School District No. 1, and William J. Tucker, president of Moor's Charity School, having for its object the enlargement and improvement of the course of study in the High school of said district, witnesseth:

In consideration of the condition hereinafter named, the president of Moor's Charity School agrees to furnish, for the benefit of said district, instruction in Greek or Latin, or both, to the amount of three periods of forty-five minutes each, daily (five days in the week during the school year) for two years from the time when this agreement shall go into effect, and of four like periods daily, or such part thereof as the Board of Education of said district shall consider necessary for the work of the school, for the third year thereafter. The instructor furnished by said president shall be acceptable to the Board of Education for the time being, and shall be a competent person to teach Greek or Latin, or such other subject as may be agreed upon between the said president and Board of Education. He shall be subject to the direction of the Board of Education in all his school work, but he shall not have charge of the school, or be responsible for its management, except in connection with his own recitations. He shall, within the limits of the time of his instruction herein specified, teach Greek and Latin so far as shall be necessary to prepare scholars for college in those subjects.

The district agrees on its part, as the condition heretofore mentioned, so to enlarge and arrange the courses of study in the High school, in connection with the instruction offered by the president of Moor's Charity School, as to prepare its pupils for entrance to college in the classical course. And it further agrees that students of Moor's Charity School shall be admitted to the High school free of tuition, it being understood that the Board of Education shall have the right to reject any such students, if deemed by them not proper persons to become members of the High school, and also that the Board of Education shall have the right to limit the number of such students in attendance, pending the renewal of this agreement.

This agreement shall be for one year from September 7, 1896, and thereafter from year to year, so long as both parties please, except that the district may at an annual meeting, or at any meeting called for the purpose, withdraw from the agreement without prejudice to its interests."

> (Signed) ROBERT FLETCHER, Chairman Board of Education.

(Signed) WILLIAM J. TUCKER,

President of Moor's Charity School.

In fulfilment of this agreement the Board of Education enlarged the schedule of studies so as to include a fourth year for such as wished to do advanced work. On the part of the president of Moor's Charity School, Mr. H. O. Aiken has given instruction to four High school pupils in Greek (third year): to the same four and to six other pupils in Vergil (third year); and to four pupils in Cicero (fourth year); having in all eleven different scholars. The benefits of this arrangement have accrued almost entirely to the district, thus far, as only two scholars have been entered as students of the Moor School, exclusively.

To meet a strong demand on the part of some who do not wish to go beyond required Latin in the classics, the Board introduced a two year's course in French; also, after some pressure, just at the opening of the autumn term, the Board allowed the introduction of elementary chemistry for "fourthyear" pupils, on payment of a fee, as Mr. Stevens was willing to undertake the task.

The maximum attendance in the High school, including eight "fourth-year" pupils who come only to recite, has been fifty-five, in the fall term; while the highest average attendance was forty-seven. This includes the two Moor's School students. These were taught as follows:

English, 4 years, including history, rhet-

oric and literature		28 s	cholars
Algebra and geometry	3 years	39	65
Latin	4. ''	38	4.6
French, thus far	2 "	31	4 G
Greek	2 ''	4	
Roman and Greek history	1 "	36	6.6

The number of actual sittings provided in this room is forty-five. The number of pupils paying tuition is seventeen Of these eight are in the High school, six in the grammar school and three in the intermediate. There were three special fees paid for chemistry by "fourth year" pupils. All fees paid to the district.

The Board has deemed it best for the interest of the distriet to raise the rates of tuition for High school scholars; all not resident in the district are charged as follows:

Terms	1st	2d	3d
Tuition	\$8.00	\$6.00	\$6.00
Chemistry, extra	3.00	1.50	1.50

The instruction in chemistry is limited at present to the first term.

The use of the library has become so general that the principal has appointed a librarian to attend to the necessary duties. This is now a most important and valuable auxiliary in relation to the work of the schools.

After considerable investigation by a committee, including one of the teachers, the vertical system of penmanship has been adopted in the two lowest grades, in the belief that it results in more legible writing and less tendency to unnatural postures than the use of the slant style.

The Board has held twenty meetings during the year. Two members of the Board were also members of the building committee which held six meetings. Just before the school meeting of March, 1896, the Board held eight meetings, chiefly to consider propositions then presenteed. The committee on schedule has held also four separate meetings. This is a total of thirty-eight meetings in thirteen months of school sessions.

The long-needed addition to the schoolhouse has now been in use two terms. The report of the Building Committee will present the figures and essential facts. The new part, 33 feet by 42 feet, affords: 1st. Ample hallways, all so connected that there are two ways of exit from each schoolroom to either outside door, and good access to the assembly room. 2d. Abundant hat rooms so that each scholar may have two or more hooks. 3d. Hallways now warmed in good degree, and means of drying wet garments in the hat rooms. 4th. A pleasant and ample room for the sub-primary school on the first floor. 5th. On the second floor a convenient recitation room for "fourth year" classes and a pleasant library room. where, also, the charts, maps and apparatus may be kept. 6th. The formerly remote assembly room, once reached only by a narrow stairway, now enlarged and made pleasant and convenient for any gatherings of all or part of the schools when such assemblage is desirable. 7th. A large room in the attic which may be finished off hereafter for any purpose desired. 8th. Ample space in the basement for storage of fuel

and operating the furnaces, and good separate access to the basement both for the janitor and the pupils.

Some doubt was expressed as to the need of so much additional space on three floors. For the benefit of those who do not often visit the schools it may be stated that every part has been in use, even more than was anticipated:-the subprimary room, constantly, of course, and the recitation room two hours, daily, by Mr. Aiken; the library room not only for keeping the books and charts, but also as a cheerful and much desired study room for fourth year (high school) scholars ; and even the unfinished attic room was used during the autumn term for experimental chemistry, in which the class took great interest. Moreover, the now conveniently accessible auditorium has already become serviceable for lectures, which have been given to the scholars and their friends, by professors of the College kindly interested in the schools, on subjects related to one or another of the branches studied by the pupils. The new furnaces and improved system of ventilation have proved quite satisfactory, the working being very near to perfection. Our devoted janitor reports that, with the connected hallways and better circulation of air, it is much easier ro keep the building warm as a whole, and this is especially evident in severe weather. The district owes much to the incessant care and zeal of the janitor in maintaining the cleanliness and comfortable temperature so essential to the health of both teachers and scholars.

It is now twenty years since the District took action for the erection of the "new" school house, and if comparison be made between our five schools today with attendance exceeding 200, and the *two* schools which were then in some way crowded into the present "precinct hall," where the only playground was the street, the contrast is not in favor of the "good old times."

The lower schools now have a proper and manageable number in each room. Consideration as to health and efficiency would limit the number to forty-five at the utmost, but prcferably to about forty in a single room. The Board recommends that the building be equipped with electric lights in the halls and auditorium; also in the high school room and in the furnace rooms of the basement. This has indeed been authorized, but, after a recent estimate by the lighting company, the board did not feel justified in incurring the expense, in the present state of the funds.

For the same reason the auditorium has been left for future renovation. After the joining of the new work to the old and removal of the old entrance, the woodwork and plastering need refinishing.

The entire cost of all these improvements should not exceed \$120.

ROBERT FLETCHER JOHN K. LORD NEWTON A. FROST H. H. H. LANGILL JOHN V. HAZEN ELIZABETH W. WORTHEN

Board of Education

#### REPORT OF THE BUILDING COMMITTEE

The Building Committee elected at the last annual meeting of the School District begs leave to report that it has carried out the instructions of the votes then passed, as follows:

Contract for the foundation of the addition to the school house was let to Mr. Tim Sullivan and completed to the satisfaction of the committee before June 1st. This included excavation of site, granite walls laid in cement mortar, underpinning, sills, caps, etc., cutting two doorways through the old foundation and removing and re-setting the granite stairway for the north entrance. The entire cost was \$665.40.

The revised plans and specifications for the addition, above the underpinning, were submitted to four bidders, whose bids were all deemed to be too high, ranging from \$5371.00 to \$7101.00. After some modification of details the contract was let to Mr. Lyman Whipple of Lebanon for \$5200 to build the addition complete and ready for use, not including the heating appliances, by Sept. 1st.

Mr. A. W. French superintended the entire construction as inspector for the committee. His services in revising specifications and estimates, making working drawings and supervising the work in all its stages were invaluable. These and the hearty co-operation of the contractor and the foreman in the evident desire to furnish excellent material and workmanship, have secured a thoroughly built and substantial structure throughout, which accords fully with the specifications and quite meets the expectations of the committee and the needs of the District.

The contract for the heating plant was let to Mr. E. T. Ford for \$425, including the setting of the furnaces. In this the contractor had the advice of the expert of the Barstow Stove Co., who has put in some of the most approved plants in this and other states. The result has met all expectations; fresh, warm air is furnished abundantly in the rooms and halls, and the ventilation is sufficient and quite under control. Mr. Ford superintended personally the setting of flues and valves as the building proceeded.

The items in general are as follows:		
Foundation and underpinning, etc.	\$ 665	40
Building above foundation,	5195	00
Furnaces and installation, complete,	425	00
Inspector, \$159.99; drawing material, type-writing	5	
and sundries, \$8.20 and \$4.69,	172	88
-	\$6458	20
Paid outside of contract:	<b>\$0400</b>	40
Lyman Whipple, material and alterations in old part,	\$266	25
Still due:	φ400	20
	149	66
For plumbing and material,		
Inspector, after July 1st,	75	00
Extra labor, grading, clearing away, cleaning, etc.,	39	72

#### \$6988 91

The estimate voted upon was \$6500. There are good reasons for the extra cost incurred, but these and other details and recommendations, will be presented at the school meeting.

The building was completed and quite ready for the opening of the autumn term on Sept. 7th. The committee believes that it has proved entirely adapted to the needs of the District and that it will be sufficient for years to come. It has done away with the crowding and intolerable inconveniences from which the schools had suffered for years. Considering the conditions as they were: the old building, which could not be altered as to size of the rooms; the character of the site which required putting the addition on the north side; the restricted area there; and the necessity of making a moderate expenditure, it seems hardly possible to have secured more improvement of the old part, and added accommodations at the same time than by the plan which the District approved a year ago and which has been put into effect. Hallways, cloak-room spaces, schoolrooms, heating and ventilating of the new and old rooms and the halls, improved accessibility of all the parts, and convenience of exits are now satisfactory.

(Signed)

S. W. COBB, Chairman, ROBERT FLETCHER, CHAS. P. CHASE, J. V. HAZEN, E. T. FORD.

## ROLL OF HONOR

#### ONE TERM

Florence M. Camp, Frank W. Gale, Mary J. White, Florence Henry, Maurice Henry, Arthur Barton, Ray Kinne, Burton Elder. Willie R. Rinnie, Edith G. Rennie, Etta J. Rennie, Walter J. Ferson, Arthur Jones, Charles H. Clark, Mary E-Nash, Ada Runnals, Nellie Jones, Laura Runnels, Leon Lord, Lucy Chandler, Maggie Bridgman, Ethel Spencer, Flora Camp, Harvey Camp, Bertie Boyd.

#### SECOND TERM

Alice B. Church, May E. Hurlbutt, Leonor A. Field, Gertrude Hennigan, Florence O. Hurlbutt, Fannie Bryant, Ethel Clark, Grace Clark, Mamie Eastman, Susie Eastman, Orrin Clark, Flora P. Lord, Grace Stone, Carrie Wright, Gertie Kibbe.

#### THIRD TERM

Fannie L. Elmer, Gertrnde L. Fitts, Charlotte B. Field, Ethel F. Arthur, Charles F. Kimball, S. Bernice Kimball, Page Johnson.

# TOWN DISTRICT SCHOOL BOARD

The majority of our schools have been as much of a success as one could expect with the prices we are obliged to pay.

We *may* secure good teachers at two or three dollars a week, but it is simply taking the chances.

If, however, we find a good teacher some other town stands ready to pay her more than we do, thus depriving us of her services just when she is in a condition to be of some benefit to our schools.

We wrote Supt. Gowing, asking him if he could send us a teacher for three dollars a week and board. He replied that experienced teachers at that price were scarce, but that perhaps he could send a high school graduate with *no* experience.

Good teachers can readily command from four to eight dollars a week and board.

While we do not advocate that this town pay such prices we do think it should pay enough to keep a good principled and well educated teacher in town as long as she will teach.

We presume inquiry will be made as to why we do not have thirty weeks of schooling as last year. In reply we will state that, first, our school money has been about forty dollars less.

Second, we have been obliged to maintain a school in No. 13 for the year. One term in No. 8, where we found five small children who could not be elsewhere provided for and where it seems a school will be needed the coming year.

Nos. 3 and 4 were in such a condition that it was not possible to change as previously.

6

And the pupils in several districts were farther advanced, thus requiring a better paid teacher.

E. F. MORRILL, D. S. BRIDGMAN, N. M. KIMBALL.

# VITAL STATISTICS

To The Selectmen:

1

In compliance with an act of the Legislature, passed June session, 1887, requiring clerks of towns and cities to furnish a transcript of the record of births, marriages and deaths to the Municipal officers for publication in the Annual Report, I hereby submit the following.

> Respectfully, GEORGE M. BRIDGMAN, Town Clerk.

> > .
