REPORT
OF THE
TOWN SUPERINTENDENT OF SCHOOLS
AND OF THE
BOARD OF EDUCATION FOR DISTRICT NO. 1.

DISTRICT NO. 1.

The Board of Education respectfully present the following Report :

The number of scholars in this District has so increased that the Board have been compelled to open a second school in the Primary Department. This gives us four schools for each term of the year. At the opening of the Spring Term, thinking the unusual attendance might be only temporary, we secured the services of two of the young ladies in the High School, Miss Cora Burbank and Miss Mary Pelton, as assistants in the Primary Department. Their work was very satisfactory to the Board, but finding our numbers continued so great that they could not otherwise be accommodated, we have made this a permanent department of the School.

STATISTICAL SUMMARY.

HIGHER DEPARTMENT.

TEACHER, MR. N. D. CRAM.

	Wages per Month, including board.	Scholars under five years of age.	Between 5 and 15 years of age.	Over fifteen years of age.	Whole number of scholars.	Average attend- ance.	Number not absent during term.
Spring Term,	\$70	0	17	24	41	33	6
Fall Term,	56	0	22	15	37	34	7
Winter Term,	56	0	21	16	37	33	5

INTERMEDIATE DEPARTMENT.

TEACHER, MISS M. M. MILLER.

Spring Term,	\$32	0	38	1	39	36	4
Fall Term,	41.83	0	39	0	39	35	1
Winter Term,	38.33	0	38	2	40	34	2

FIRST PRIMARY DEPARTMENT.

TEACHER, MISS C. E. CUTLER.

Spring Term,	\$28	13	39	0	52		6
Fall Term,	28	1	42	0	43	35	5
Winter Term,	32	1	43	0	44	36	4

SECOND PRIMARY DEPARTMENT.

TEACHER, MISS MYRA WARDEN.

Fall Term,	\$ 8	3	26	0	29	19	1
Winter Term,	16	1	27	0	28	20	1

Mr. Wm. L. Pierce left our High School at the close of the Spring Term, carrying with him the reputation of an excellent teacher, and was succeeded by Mr. N. D. Cram, who has now had charge of the schools for two terms. Mr. Cram was without experience as a teacher when he entered upon his duties, but has developed unusual aptitude for his work. He is interested, earnest and thorough as an instructor, and governs without effort. All wish him to remain.

Miss M. M. Miller follows Miss N. S. Brown, the former popular teacher of the Intermediate Department. Miss Miller's teach-

ing shows the value of experience and of a thorough training in Normal methods. She is laborious and practical, and has won the respect and confidence of her school.

Miss Cutler has become a prime factor in our Primary Department, and is mistress of the situation. Her scholars are making good progress, and give her their undivided love.

Miss Warden, the teacher of the Second Primary Department, was taken from our own High School, and the Board have reason to be satisfied with their choice, for she has done excellent work, and her "little folk" are making progress. Her success is assured.

We have only words of commendation for our teachers, for we cannot justly use any others, but we would not be understood as reporting our schools as perfect models. They are good, but may be made better. We lack nothing in material, but can improve our organization and methods. The scholars are doing well, but let us awaken in them a more enthusiastic love of study. To this end we invoke, once more, the hearty and practical co-operation of the whole district. We must put into the schools and foster the growth of whatever we would have reappear in the intellectual and moral life of the next generation. In this way we may perpetuate what is best in ourselves, and when dead our works will follow us.

J. W. PATTERSON, } *Board*
 S. W. COBB, } *of*
 E. R. RUGGLES, } *Education.*

DISTRICT No. 2.

Of the twenty weeks schools in this district Emma L. Gilbert and Estelle F. Sargent, each, taught a term of ten weeks. Both are able and efficient teachers, doing themselves credit and leaving a lasting impression for good upon the minds and hearts of their pupils. No. of scholars, 16.

DISTRICT No. 3.

Summer term of eight, and Fall term of twelve, weeks were both taught by Etta G. Camp, working faithfully and to the acceptance of the district. No. of scholars, 11.

DISTRICT No. 4.

Myra A. Warden taught eight weeks in Summer. An energetic, live teacher. Though inexperienced she did fairly, yet as all should do, will doubtless improve by practice. Fall term of twelve, and Winter term of thirteen, weeks, in charge of Grace Darling. A good instructor, and with a little more firmness and decision in the management of her scholars would rank among our best teachers. No. of scholars, 27.

DISTRICT No. 5.

Summer and Winter terms successfully taught by Helena G. Arvin. Fall term taught by Louisa A. Smith. Discipline good. Examination at the close showed faithfulness of both instructor and instructed. Register not returned.

DISTRICT No. 6.

During Summer and Fall Emma Mason taught nineteen weeks school. Although a young teacher she labored faithfully, aiming at thoroughness in instruction. No. of scholars, 7.

DISTRICT No. 7:

The Summer term was Ella Childs' first experience in teaching. For order and good deportment her school was not excelled by any in town, each scholar knowing his place and business, and attending to the latter, even to the neglect of others. The Fall term was Ida Berry's first school. Cannot speak as favorably of the appearance and attainments of the school under her management as under that of her predecessor. The Winter term, under the instruction of Louise A. Smith, proved a success. All classes gave evidence of thoroughness and good attention to rules and instruction. No. of weeks school, 29. No. of scholars, 29.

DISTRICT No. 8.

First term of six weeks was acceptably taught by Addie E. Fellows. Second term of twelve weeks was taught by Etta F. Merrill, with her usual good success. No. of scholars, 5.

DISTRICT No. 9.

During the year Rosa Monahan taught fifteen weeks of school. Under her quiet rule the pupils could not fail to make fair progress in their studies. No. of pupils, 9.

DISTRICT NO. 10.

Ida A. Webb taught two terms of nine and twelve weeks respectively. The appearance of the school was generally pleasing. Scholars and teacher seemed interested in their work. No. of scholars, 7.

DISTRICT NO. 11.

The one term of eleven weeks was taught by Ollie T. Hatch. Visited the school but once. It appeared well, giving promise of a profitable term. No. of pupils, 5.

DISTRICT NO. 12.

Summer and Winter terms taught by Lizzie L. Goss, with general satisfaction to the district. Order, good, and a lively interest on the part of teacher and pupils could not fail to make the terms pass pleasantly and profitably. Florence B. Emerson taught for eight weeks in the Fall. A good scholar, but lacking in energy and decision, did not accomplish the good she ought. No. of weeks school, 26. No. of scholars, 13.

DISTRICT NO. 13.

Delia J. Hurlbutt taught eight weeks in Summer, but failing to gain the love of her pupils did not awaken the interest she otherwise might. School made fair progress. Laura A. Camp taught six weeks in the Fall, with her usual good success. Mr. J. M. Hulbert had charge of the school for eight weeks in Winter. When visited, at the commencement of the term, the school made good appearance and promised well, teacher laboring zealously, but some dissatisfaction arose after a time. Many leaving, the school closed prematurely, and was not visited at its close. No. of scholars, 24.

DISTRICT NO. 14.

The one term of eleven weeks was taught by Ella B. Spaulding, an earnest, faithful teacher. Her little school, at examination, showed a thoroughness of drill and close application to studies pursued. No. of pupils, 10.

DISTRICT NO. 15.

This little school of four scholars was taught for five weeks by Katharine M. Bliss. It appeared well when visited at the commencement, but not being in but once cannot report.

DISTRICT No. 16.

School for the year has been under the charge of Vinnie Follensbee, an active, working teacher, with a love for her work. No. of weeks school, 20. No. of pupils, 10.

DISTRICT No. 17.

Summer term taught by Christie Warden. Nothing to say but in commendation. Winter term by Miss Buck. School yet in session.

DISTRICT No. 18.

Laura E. Merrill profitably taught her two pupils for seventeen weeks.

Your Committee, in submitting his report, deems it but just to say that, although some improvement is noticable in the schools of this town, yet, with all the facilities for improvement, such as maps, charts, and text-books, furnished, much too large a proportion of our youth are deficient in that thorough, practical education that ought to be obtained in our district schools. We naturally inquire what are the causes of this defect. Are there not several? 1st. Our teachers often confine themselves too strictly to the letter of the text-book, without striving to elicit thought and investigation in the minds of those under their instruction, therefore, the pupils acquirements are superficial, being ignorant of principles and their applications. 2nd. With some teachers there is a great lack of interest in their work. Without this important qualification a teacher will be unable to stimulate in the pupil that patient industry and constant application, without which little will be accomplished. 3rd. A want of interest manifested by parents. To them I would say, trust not to hearsay, but visit the school room and convince yourselves whether reports are true, and by your presence stimulate your children to still greater exertion, for it is but natural that when a parent manifests an interest in the work or play of a child, that that expression but creates a stronger desire to please. Again, I say, visit your schools, judge for yourselves, encourage the right, discountenance the wrong, aid the teachers by counsel and suggestion, and by so doing you will give a valuable impetus to the great and noble work of educating the rising generation in our

midst. No change in text-books has been made during the year, as your Committee does not deem it expedient to make too frequent changes in text-books.

All of which is respectfully submitted,

WM. L. BARNES,

Superintending School Committee.

We find the following names written upon the
