R E P O R T
OF THE SUPERINTENDING SCHOOL COMMITTEE
OF HANOVER, FOR THE YEAR ENDING
MARCH 8, 1869.

The Superintending School Committee respectfully present the following report:—

General Report of Schools in District No. 1, by Superintending Committee.

This District has had two schools during the Summer, Fall and Winter Terms. The small school was taught by Miss Fullington the Summer and Fall Terms and a part of the Winter Term, leaving on account of her health. This teacher seemed to be interested in her pupils, and they in turn, appeared to be happy with her, but there was wanting executive ability to make the school what the Committee desired.

The closing nine weeks of the Winter Term, was taught by Miss Hurlburt with good success, the pupils making marked progress, during this short time.

The large school was taught during the Summer Term, very successfully by Miss Elkins, a young lady of education and experience in teaching.

The Fall Term was taught by Miss Walcott, a lady of refinement and much natural ability, but lacking experience, failed to keep the school up to its previous standard.

Two male teachers had charge of the school, during the Winter Term. Mr. Currier taking charge the first two or three weeks, on account of the sickness of Mr. Folsom, who was engaged for the Term.

The Committee think Mr. Currier would have carried the school through successfully, had he remained, but from changes, and other causes, we do not think this school, both as to discipline and attainments, can be reported as in so good a condition as at the close of the Summer Term

This school is much in need of mural maps and reference books, there being not one of either.

The management and instruction of the schools, has been generally commendable, and in a few districts, very satisfactory.

In procuring good teachers, much is depending upon the Prudential Committee.

The districts should therefore look well to the selection of such Committee.

We have now in our Schools, between 50 and 60 attending to such branches as Algebra, Philosophy, Book-keeping, &c.

We need teachers able to teach them. In selecting teachers, care should be taken in relation to their habits, their manners, and their moral principles, as well as to their literary attainments; that the most judicious parents, may not be grieved by an evil example.

Let teachers also feel their responsibility in this matter. They are impressing upon the young mind and heart their own image; an impression which will remain, and be the more obvious, when the individuals have attained their maturity.

The Registers report 88 visits of the Superintending Committee; including 18 by the Committee of District No. 1.

The following are the books recommended, and now very generally used. Town and Holbrook's Progressive Readers and Speller, Weld's and Quackenbos, and Town's small Grammar, Arithmetics, Adam's, and Greenleaf's National; Colburn's and Emerson's mental; Quackenbos' History of the United States, (small and large); Geography, Guyot's Series; Algebra — Robinson's Elementry, Book-keeping, Mayhew's; Cutter's Physiology.
