REPORT FOR THE CALENDAR YEAR ENDING DECEMBER 31, 1909

The work of the schools for the winter and spring terms, while in some cases excellent, was in general below the standards of previous years. Neither the scholarship nor the behavior of the pupils under some of the teachers was satisfactory. The work of the High School was especially criticised by the State Superintendent as the result of his own inspection and of the routine reports submitted to him.

With the beginning of the fall term an earnest attempt was made to remedy the deficiencies. An experienced teacher, Mr. Winfield H. Stone, Vice Principal of the Troy Conference Academy of Poultney, Vt., was secured as Principal, and other vacancies were filled by teachers well qualified for their work.

On recommendation of the State Superintendent the course of study in the High School was reduced from five years to four, and the several courses were changed to conform essentially to the course recommended by the Educational Council of the State, and now in general use in the New Hampshire Schools. These changes have involved changes in the length of the recitation periods and in the length of the school day. The effect has been to put more emphasis on thorough home work, and on prompt and attentive work in the classroom. The school is now better able to meet the requirements of the State authorities, and its work is in all ways improved. The school needs, however, still more co-operation on the part of parents; home work is absolutely necessary, and parents should see that it

is well done, at regular hours. It is also true that teachers have to spend time and strength in trying to teach some boys and girls of high school age the rudiments of good behavior. Parents could greatly help the teachers if they could make their children feel that good behavior at school is as important as any work in the school books.

At the annual meeting in March the district appropriated \$1,000.00 for the thorough remodelling of the toilet rooms in the basement of the school building. This work was thoroughly done by E. T. Ford in the summer, and the sanitary condition of the building is now, with the new heating and ventilating system, such as to offer security for the health of the children. The faithful and intelligent care of the building given by the janitor, John P. Snow, makes the new appliances really effective.

At the annual meeting Newton A. Frost, who had been a member of the School Board for twenty-five years, declined a re-election. The district expressed their sense of obligation to him for his years of most efficient and unselfish service in the following resolutions:

Whereas Mr. Newton A. Frost has been for twenty-five years a member of our School Board, having been its secretary from 1884 to 1891, its treasurer since 1891 and its chairman since 1897, and whereas in the discharge of all his duties he has been zealous for the efficiency of the schools, and has exhibited unfailing tact, wisdom, and kindness in his relations with the other members of the Board, with the teachers and with the patrons of the school, voted that the district express to Mr. Frost their great regret that his efficient connection with the schools must now come to an end, and their gratitude for the long and valuable services which he has so freely rendered.

Mr. Perley R. Bugbee was elected to fill the vacancy caused by Mr. Frost's retirement, and was by the School Board made their chairman.

By a change in the school law it became necessary to elect a treasurer outside the membership of the School Board, and Mr. Alfred W. Guyer was elected to that office.

A class of nine members was graduated June 25, with the following program :
