HANOVER, FEB. 28, 1865.

REPORT  
OF THE  
SUPERINTENDING SCHOOL COMMITTEE  
FOR THE YEAR ENDING  
MARCH 13, 1865.

---

DISTRICT NO. 1.

This school is in two departments, and has had three terms in each. The first and third terms of 12 and 11 weeks for the small scholars was under the care of Mrs. Taylor, who managed and taught this department with her usual success. She appears admirably adapted to her work. The district would do well to continue her services for years to come if they can be obtained.

The second term of this school of 12 weeks was taught by Miss Maria P. Johnson, who, after becoming more acquainted with her task, succeeded better than at the beginning.

The Summer term of 12 weeks for the larger scholars was under the care of Miss Emma Brigham, and was evidently taught and managed with very good success. Miss Brigham is among our most experienced and efficient teachers.

The Fall term of 10 weeks was taught by Miss Ellen F. Smalley. Under her skillful management the school appeared well, showing that mild treatment is not necessarily inefficient, nor harsh management necessary to order, quietness, and improvement. The Committee has never visited this school when it appeared better.

The Winter term of 10½ weeks was taught by Mr. Jason H. Dudley. Mr. Dudley is prompt and energetic, awakening mental activity and promoting a clear perception in his pupils. The school appeared well at the close of his term.

Whole number of scholars 147.

## DISTRICT NO. 2.

Summer term 10 weeks, by Miss Angie E. Hadley—an experienced and successful teacher.

Winter term 12 weeks, by Miss Hattie M. Bailey. Management and instruction commendable.

Whole number of scholars 9.

## DISTRICT NO. 3.

Summer term 8 weeks by Miss Ruth F. Hurlbutt.

Winter term 9 weeks, by Miss Estella A. Tracy. This school needs a stricter discipline, and to have a spirit of closer application and perseverance infused into it.

Whole number of scholars 21.

## DISTRICT NO. 4.

The Summer, Fall and Winter terms of this school were taught by Miss Lucy E. Fellows. She has not been surpassed by any as an able, faithful and successful teacher and disciplinarian. On account of the advanced standing of several scholars and the variety of studies, none of our schools have demanded or received more labor from the teacher than this.

In her Report the teacher remarks “that the school has sustained its former character in respect to whispering. The smallest scholars have made improvement in that respect.” She also says of the Winter term, that the attendance has been very prompt. About twenty have no tardy marks, eleven have not been absent one half day, and the average attendance of thirty is TWENTY-EIGHT!

Whole number of scholars 36.

Whole number of weeks of schooling 369.

Whole number of scholars 446.

With few exceptions these teachers have been efficient and successful, and some of them of the first qualifications; also faithful and conscientious in the discharge of their duty. With very few exceptions the schools exhibited good order and quietness, and there has been commendable and in some instances marked progress.

The Registers report 84 visits of the Superintending Committee, and of the Prudential Committees, 23. Other visitors 283.

The Superintending Committee, by furnishing books at the lowest wholesale prices, and by exchanging for old books at half price, has succeeded in introducing a set of books at comparatively reduced expense to the schools.

These books are thought to be the best of their kind, and if parents will purchase those recommended, when they procure new books, the work will be completed of having such uniformity as will greatly facilitate the proper classing of the schools ;—and be an accommodation to those, who go from one school to another, as is frequently done.

In the opinion of the Committee it would be money well expended, if the Districts would instruct their Prudential Committees to purchase a set of Reading Books and a Grammar for the use of the teacher in each of the schools, to be kept for that purpose from year to year. As it now is, the teacher in most cases depends upon some scholar for the use of a book while the class recites or practices in reading.

Finally in relation to books, it is recommended that the town pass a vote that the books introduced and now in use be continued to be used in the schools for five years from this time.

The following are the books recommended and now very generally used : — Town and Holbrook's Progressive Readers and Speller, Weld & Quackenbos' Grammar, Adams,' and Greenleaf's National, Colburn's, and Emerson's Arithmetics, Quackenbos' History of the United States, small and large, Colton & Fitch's Geography, Cutter's Physiology, Davies' Algebra.

BEZALEEL SMITH,  
SUPERINTENDING COMMITTEE.
