Remarks.—Your Selectmen would say that the report on the liquor agency of last year, is said to be erroneous. Instead of \$186 11 reported last year, it is decided there is only \$58 84 and interest for a year due, making quite a difference in the amount of the assets.

REPORT OF THE
SUPERINTENDING SCHOOL COMMITTEE,

FOR THE YEAR ENDING MARCH 13, 1871.

The Superintending School Committee respectfully present the following Report:—

General report of schools in District No. 1, by their Superintending Committee:—

DISTRICT No. 1.

Two graded schools have been maintained in District No. 1 during the year; each school keeping three terms. The school of older pupils, was taught during the Spring, Summer and Autumn, by Miss Emily A. Liscom; and the school of younger pupils, during the same period, by Miss Martha E. Benton; both schools giving very good satisfaction.

During the Winter, the older school was taught by Mr. J. P. Otis, a member of the Junior Class in College. Mr. Otis is a good teacher, was unwearied and faithful, and met with as much success, as perhaps the school would allow. The other department during the Winter was taught by Miss Liscom, who, unfortunately, through frequent interruptions caused by ill health, was not able to make the school all that it otherwise would have been.

It is believed that the citizens of this District are contemplating improving their school edifice, which needs it sadly. The building at present reflects little credit upon the good people of Hanover.

Whole number of scholars, 116. Average, 85.

DISTRICT No. 2.

Summer, seven weeks, Miss Mary L. Whipple, teacher. Wages, \$15. Miss Whipple left her school before the close of the term, on account of sickness. The remainder of the term, and Winter term of 10 weeks, was taught by Miss Lucy E. Chandler. Her small school, both terms, composed almost wholly of small scholars, appeared to have been pleasantly managed. Scholars, 11. Average, 7 1-2.

DISTRICT No. 5.

Summer and fall term, eight weeks each. Miss L. A. Leavitt, teacher. Wages, \$20. The order of the school was better than usual. Instruction thorough. She faithfully devoted about 7 hours daily to her task. Winter term, ten weeks, in two departments. The smaller scholars were under the care of Miss Maggie Whipple. Her success was marked and gratifying in every respect.

Miss Delia J. Hurlburt had in charge the older scholars for seven weeks, when it was thought best to have Mr. F. W. Davison finish the term. His success was all that could be expected. Scholars, . Average, 24 1-2. Algebra, ; book-keeping, 4.

Miss Tilton reports the names of three scholars who had not been absent or tardy during the term, viz: Martha J. Eastman, Angie Howe, and Frank Withington.

Winter term, eight weeks, Miss Evelyn Pressey teacher. Wages, \$22. The school appeared to have been well managed and thoroughly instructed, but was evidently retarded in its progress by spending too much time in reviewing what had been gone over in past terms. CLOSE.

Our public schools, the past year, have been under the instruction of 37 teachers; 4 males; 31 females. Whole number of weeks of school, 304; averaging to each district 20 1-5 weeks. Whole number of scholars, 389; average attendance, 273; whole amount expended for the schools, including board, etc., given, \$2452 85; averaging to each scholar, about \$6 30.

These schools with very few exceptions, have been managed and taught with ability and skill. In some cases, especially, we would speak in high terms of praise. We would endorse what we said last year. "Our public schools have, for a few years past, been taking a higher grade of character." And for general remarks and books used, we would refer to our reports of former years, instead of repeating them, or adding to them.
